## ABOUT ME

Hi! I'm a student from Thailand. I came to America to discover a new passion for a future career. Now I'm interested in becoming a UIUX designer. This class has gotten me more interested in this job.

My email contact:  
[nroungsi@mail.ccsf.edu](mailto:nroungsi@mail.ccsf.edu)

## RASTER

The concept is my cat, Pluto, traveling by magic carpet inside the Aladdin Disney cartoon movie's atmosphere. I put the text "Aladdin with Pluto" in the picture.

## VECTOR

The concept is to make my cat as a vector graphic in some nice place that has the phrase “Happy cat” with appropriate context about life after quarantine.

## ANIMATION

The concept is a food truck selling my favorite food in the summer. It takes place in a happy and sunny atmosphere. I want the style to be like a cartoonish animation with the music and visual effects.

## PRINTING LAYOUT

The concept is an vacation trip invitation letter letter to my best friends. I had done this assignment on challenge project, and I sent it to my best friends.

**THANK YOU!**
