InDesign

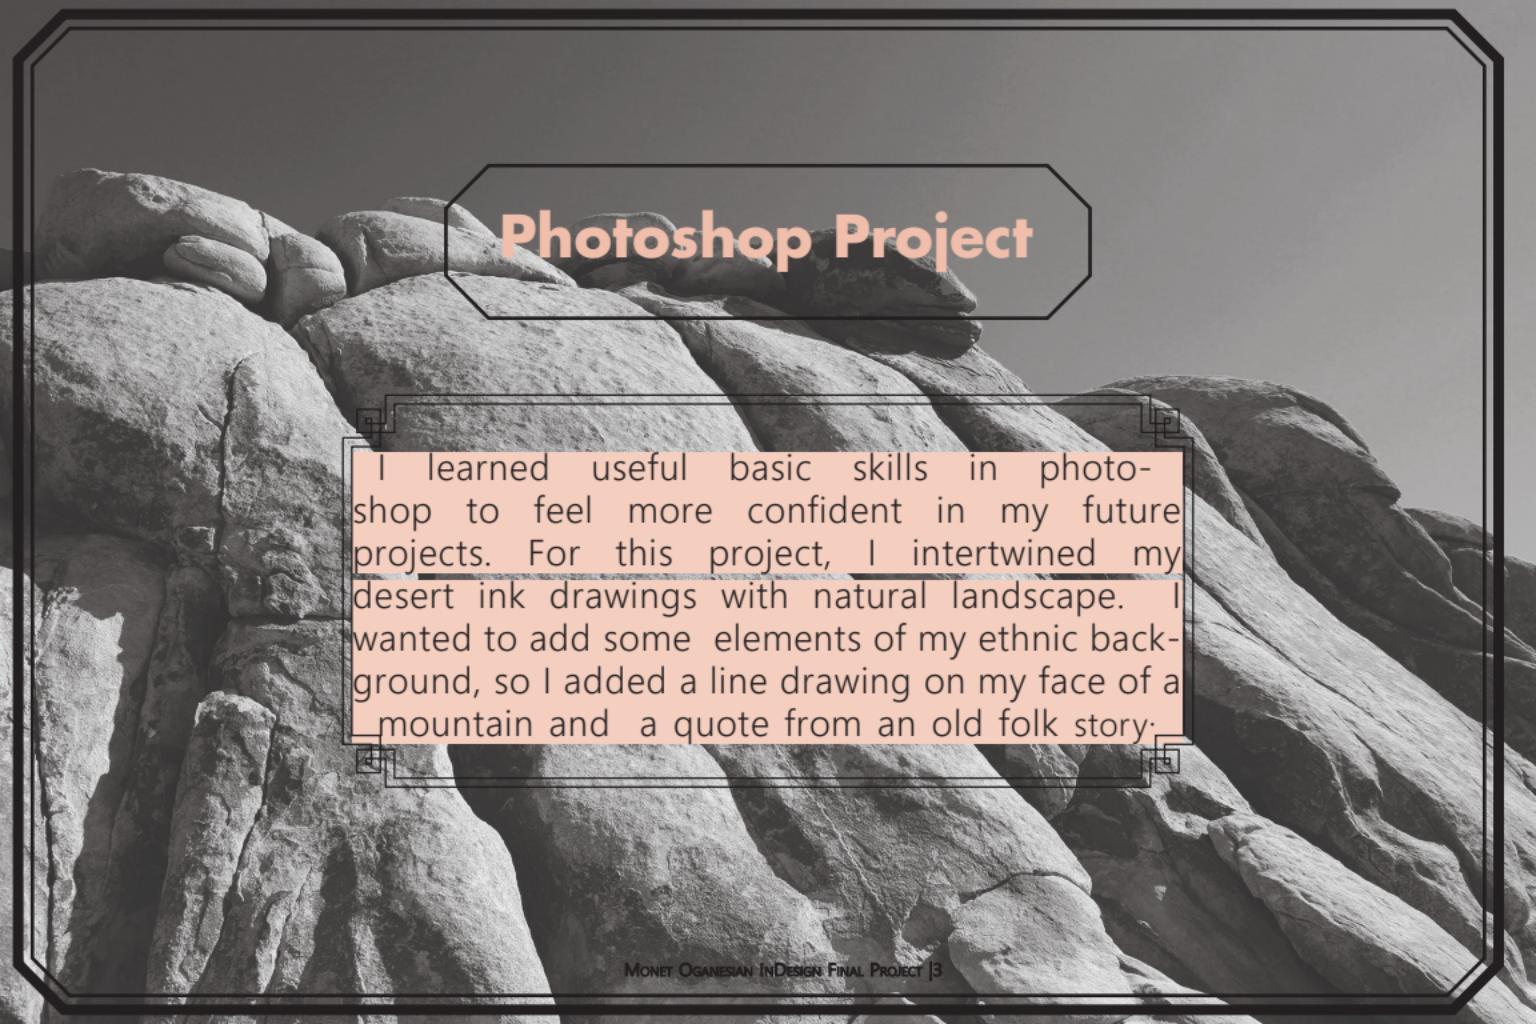

HIYA THERE! THIS IS MY FIRST INDESIGN PROJECT AND SEMESTER AT CCSF. I AM INTERESTED IN STACKING VMD CERTIFICATES WITH A FOCUS ON GRAPHIC DESIGN. I HAVE A BACKGROUND IN ART HISTORY AND ENJOY CREATING ANALOG ARTWORK AND FREELANCE PHOTOGRAPHY. I HOPE YOU ENJOY MY PROJECTS, AS I ENJOYED LEARNING A BIT OF EACH PROGRAM IN THIS CLASS.

"LIKE A STAR WHOSE BRIGHTNESS GROWS  
ON THE EARTH MY BEAUTY SHOWS;  
THOU SHALT LONG FOR YET, AND SEEK  
MY DARK EYES AND ARCHING BROWS."

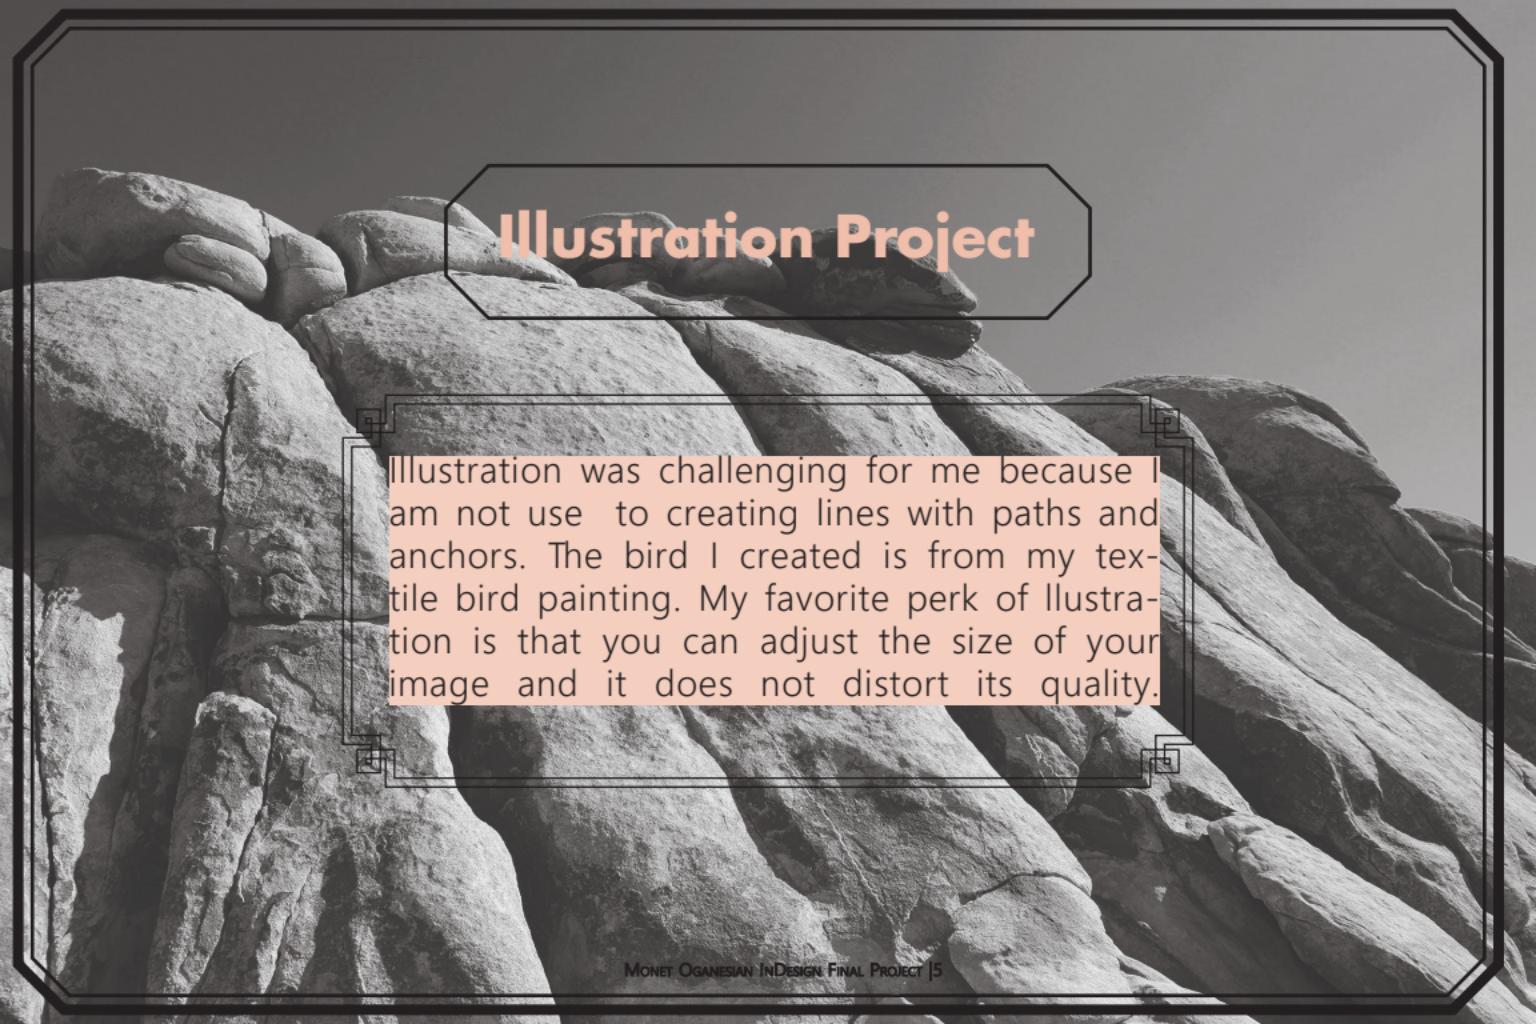

-ARMENIAN FOLK SONG

# Photoshop Project

I learned useful basic skills in photoshop to feel more confident in my future projects. For this project, I intertwined my desert ink drawings with natural landscape. I wanted to add some elements of my ethnic background, so I added a line drawing on my face of a mountain and a quote from an old folk story:

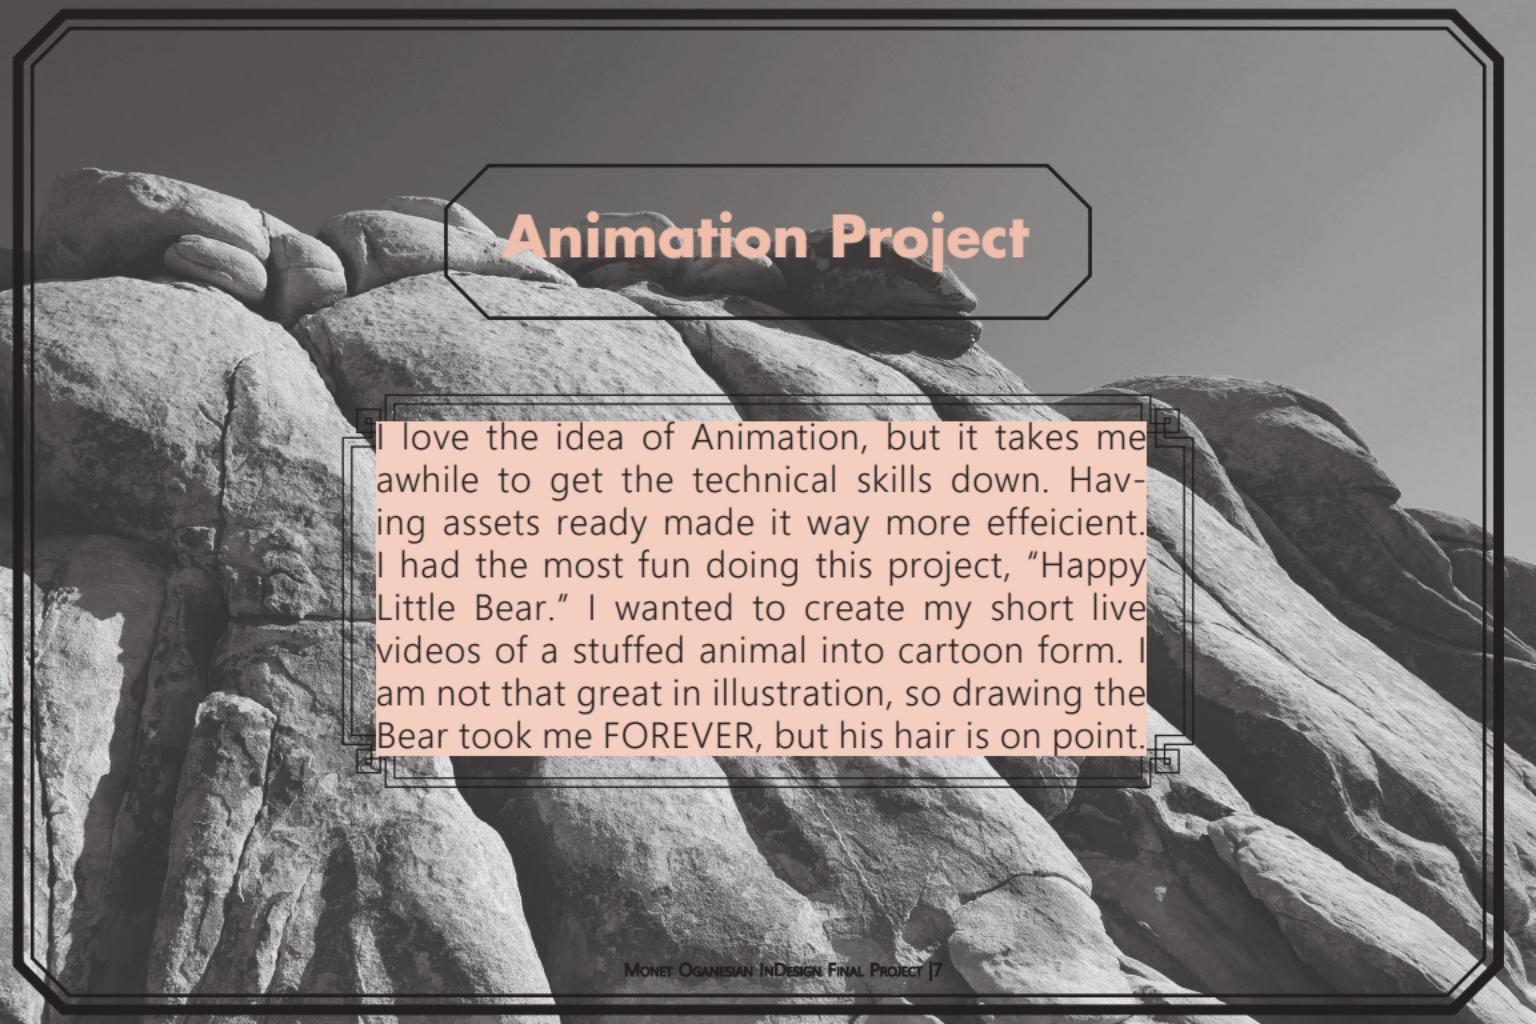

# Illustration Project

Illustration was challenging for me because I am not used to creating lines with paths and anchors. The bird I created is from my textile bird painting. My favorite perk of illustration is that you can adjust the size of your image and it does not distort its quality.

HAPPY LITTLE BEA  
UNTIL NEXT TIME

# Animation Project

I love the idea of Animation, but it takes me awhile to get the technical skills down. Having assets ready made it way more efficient. I had the most fun doing this project, "Happy Little Bear." I wanted to create my short live videos of a stuffed animal into cartoon form. I am not that great in illustration, so drawing the Bear took me FOREVER, but his hair is on point.
